Introduction

Lessons need to be designed to ensure accessibility to a general education (3) i (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le)) and in (3 curriculum designed (a round rigtogo (is-le))) and in (3 curriculum designed rigtogo (is-le)) and in (3 curriculum designed

The second column says Inferences" (what I infer about this animal). In this column, we need to write what we infer, or what we thin labout the animal based on the details we wrote down in the first column. We need to use the evidence we see in the visual based on the caption as well as what we know about how animals protect themselves.

The third column say \$\text{Details in the Text That Support My Inferences" (confirmed with explicit information \[\epsilon\$. Remember, we are ot going to fill in this olumn yet. We will talk about what information needs to go in this column after wead the article.

We are going to complete the first two columns of the Examining Visualscattleer for the mimic octopustogether. We will look at the visuals and read the captions. I will talk about what we see and read and add information to myote-catcher. Then you can add the same formation to your form.

Animal Defense Mechanisms:

Examining Visuals (For Teacher Reference)
